— 01 · THE PRACTICE

One practitioner. Three practice *areas*.

Daftar Advisory is an independent finance practice serving founders, CFOs, and finance teams across MENA. The work is technical, the scope is fixed, the fee is named before the engagement begins, and the deliverable comes with the working file.

Eight years inside PwC and EY produced a clear observation. The middle of the MENA finance market is under-served. The Big Four are priced for large listed groups. Mid-tier firms are priced for compliance minima. Operators in between are over-billed when they buy the Big Four and under-supported when they don't. Daftar exists for that gap.

The Big Four sell you an audit file. Daftar sells the judgement that produced it.

02 · THE PRACTITIONER

Eight years.
Four *jurisdictions*.

Dual Big Four trained — PwC (Amman, then Dubai) → EY (Riyadh) — with a US assurance interlude at MillerMusmar in the Washington DC metro. Active engagements across KSA, UAE, Jordan, and the USA. Reporting frameworks practised to senior level: IFRS, SOCPA, US GAAP, and PCAOB. CPA candidate, two of four sections passed.

8 yrs PWC + EY · DUAL BIG FOUR	SAR 3B+ AUDITED CLIENT REVENUE, CURRENT PORTFOLIO	4 jx KSA · UAE JO · US	4 fw IFRS · SOCPA GAAP · PCAOB
--	---	--	--

CAREER TO DATE

SEP 2024 – PRESENT	Senior Auditor, Ernst & Young (Riyadh) · KSA-listed portfolios across construction, infrastructure JVs, energy.
OCT 2023 – MAR 2024	Senior Auditor, MillerMusmar CPAs (Washington DC metro) · Non-profits, government, HNW; US GAAP, Yellow Book, ASC 958.
MAR 2020 – NOV 2022	Associate, PwC (Dubai) · Healthcare, hospitality, media; UAE and GCC group audits.
APR 2017 – MAR 2020	Associate, PwC (Amman) · Trade, government, healthcare, manufacturing; 10+ engagements.

03 · WHAT GETS BOUGHT

Nine outcomes, plus a retainer *lane*.

Every engagement maps to one of nine defined outcomes across three practice areas, plus an ongoing retainer lane. Fee anchors are listed below. The actual fee for any engagement comes back within 48 hours of the scoping call.

AREA A — TECHNICAL FINANCE

A / 01 · IFRS FINANCIAL STATEMENTS

Financial statements your auditor can *sign*.

Standalone or consolidated IFRS — or IFRS for SMEs — including first-time adoption and restatement. Formula-driven TB → Notes → FS linkage, delivered with the working file so your team can maintain it.

FEE	USD 4,500–16,000 · SAR 17,000–60,000
TIME	3–5 WEEKS
CODES	IFRS 10 · IAS 1 · CONSOLIDATION

A / 02 · INDEPENDENT TECHNICAL REVIEW

A technical review that holds in the *committee* room.

Independent opinion on one contested position — IFRS 15, 16, 9, IAS 37, consolidation — with a documented memo, paragraph references, supporting workpapers, and an IAS 8 disclosure draft.

FEE	USD 5,500–22,000 · SAR 20,625–82,500
TIME	2 WEEKS
CODES	IFRS 15 · IFRS 16 · IAS 37 · IFRS 9

A / 03 · AUDIT READINESS & REMEDIATION

The audit opens on a *clean* file.

Four-week sprint: PBC discipline, reconciliations, documented positions, disclosure drafts. The audit opens on a file that is already clean. The auditor's planning estimate moves by weeks, not days.

FEE	USD 7,500–18,000 · SAR 28,125–67,500
TIME	4 WEEKS
CODES	PBC · ISQM 1 · SOCPA · JACPA

AREA B – COMPLIANCE, FILED ON TIME

B / 01 · ZATCA PHASE 2 READINESS

ZATCA Phase 2 integrated in *six* weeks.

Wave 24 (SAR 375k threshold, go-live 30 June 2026) or Wave 23 remediation. Vendor selection, CSID onboarding, sandbox tests, parallel run, cutover. No middleware up-sell; no ERP migration in disguise.

FEE	SAR 12,000–35,000 · USD 3,200–9,300
TIME	4–6 WEEKS
CODES	UBL 2.1 · FATOORA · CSID · BR-KSA

B / 02 · UAE CORPORATE TAX COMPLIANCE

UAE Corporate Tax, decided before *year-end*.

FY24 amendments, FY25 planning, and the Small Business Relief vs QFZP decision memo — with the IFRS-for-SME book rebuilt where needed and related-party disclosure discipline documented. One entity or group.

FEE	AED 12,000–40,000 · USD 3,270–10,900
TIME	2–6 WEEKS
CODES	CT LAW · SBR · QFZP · FTA

B / 03 · KSA TRANSFER PRICING

Transfer pricing the auditor will *accept*.

Controlled Transactions Disclosure Form, Master File and Local File — aligned to the Zakat-payer documentation threshold: SAR 100M now, SAR 48M from FY2027. Benchmarking, functional analysis, and the auditor affidavit package.

FEE	SAR 15,000–70,000 · USD 4,000–18,700
TIME	2–7 WEEKS
CODES	CTDF · MASTER FILE · LOCAL FILE · CBCR

AREA C — INVESTMENT DECISIONS

C / 01 · INVESTMENT CASE

An investment case that survives the *board* meeting.

Market sizing, unit economics, NPV and IRR, sensitivity analysis, governance, risk register, and a written go / no-go recommendation. 25–40 pages plus the supporting model. Replaces the feasibility-then-proposal shuffle with one defensible answer.

FEE	USD 8,000–25,000 · SAR 30,000–94,000
TIME	4–6 WEEKS
CODES	DCF · SENSITIVITY · GOVERNANCE · UNIT ECON

C / 02 · NOMU READINESS DIAGNOSTIC

Pre-IPO readiness before you hire the *adviser*.

For SAR 30–80M SMEs with 12–24 months to a Nomu listing. IFRS, governance, MIS, and disclosure-readiness gap — documented with a remediation runway. Not a substitute for a CMA-licensed financial adviser; the bridge that gets you ready to hire one.

FEE	USD 12,000–22,000 · SAR 45,000–82,500
TIME	4–6 WEEKS
CODES	NOMU · CMA · IPO READINESS · GOVERNANCE

C / 03 · QUALITY OF EARNINGS

Quality of earnings for SME *deals*.

Five to fifteen days. Normalised EBITDA bridge, working-capital analysis, debt-like items, revenue quality. Built for corporate buyers acquiring SAR 10–100M targets where Big Four commercial DD is disproportionate.

FEE	USD 8,000–25,000 · SAR 30,000–94,000
TIME	1–3 WEEKS
CODES	EBITDA BRIDGE · WORKING CAPITAL · DEBT-LIKE

LANE D – ONGOING PARTNERSHIP

D / 01 · FRACTIONAL FINANCE FUNCTION

A finance function, sized to *fit*.

Monthly retainer for SMEs and startups that need senior finance attention but cannot justify a full-time CFO. Scope sized to the business: monthly close, board reporting, IFRS positions as they come up, audit liaison.

FEE	USD 2,800–5,500 PER MONTH
TIME	MINIMUM THREE MONTHS
CODES	MONTHLY CLOSE · BOARD MIS · AUDIT LIAISON

D / 02 · AUDIT-FIRM SUBCONTRACT

Senior capacity, partner-to-*partner*.

For local audit firms that need senior IFRS or SOCPA capacity on a specific engagement without hiring. Day-rate basis, partner-to-partner terms, full confidentiality, the engagement signs in your firm's name.

FEE	FROM SAR 4,500 PER DAY
TIME	ENGAGEMENT-SPECIFIC
CODES	IFRS · SOCPA · TECHNICAL REVIEW

04 · RECENT WORK

Two engagements, *anonymised.*

Both engagements ran on fixed-fee terms, delivered against a defined scope, and shipped with the underlying working file. Client names available on request, subject to confidentiality.

KSA CONSTRUCTION JV ♦ SAR 800M REVENUE

IFRS 16 lease recomputation across 47 contracts.

The original lease model had understated the right-of-use asset by approximately 11%, driven by inconsistent discount-rate application across equipment leases. Rebuilt the complete IFRS 16 schedule from source contracts, reconciled to the audited prior-year position, and delivered a single working file with full audit trail.

DELIVERABLE	RECOMPUTED LEASE SCHEDULE · TECHNICAL MEMO · AUDIT RESPONSE FILE
TIMELINE	3 WEEKS · FIXED FEE
OUTCOME	AUDITOR CLEARED THE POSITION WITHOUT FURTHER ADJUSTMENT

MENA HEALTHCARE GROUP ♦ SAR 1.2B REVENUE

Full financial statements + audit readiness *package.*

Client was preparing for a first external audit under IFRS after three years of internal-only reporting. Built the complete financial statements with TB → Notes → FS linkage, documented all accounting policy positions, and pre-emptively constructed the PBC working paper set before the auditor arrived on site.

DELIVERABLE	DRAFT FS · NOTES · POLICY MEMO · PBC BINDER
TIMELINE	5 WEEKS · FIXED FEE
OUTCOME	AUDIT COMPLETED ~40% FASTER THAN MANAGEMENT LETTER ESTIMATE

— 05 · HOW IT WORKS

Four steps. No *ambiguity*.

STEP 01 · SCOPE

A 30-minute call to understand exactly what is needed.

If the fit isn't right, you'll hear that on the call — and a recommendation to a firm better positioned. Free. Same week.

STEP 02 · PROPOSAL

A one-page engagement letter with numbered scope.

Fixed fee, fixed timeline, payment schedule, and the non-attest disclaimer. You know what the work is and what it costs before it starts. Delivered within 48 hours of the scoping call.

STEP 03 · EXECUTE

The work is done directly.

Weekly checkpoints with drafts shared openly — not held until a grand reveal at the end. Typical engagement runs 1 to 6 weeks. Longer engagements break into milestones with explicit deliverables at each.

STEP 04 · DELIVER

The deliverable plus the working files.

Formulas, assumptions, sources. One review pass included; additional revisions priced per pass. Everything is yours to extend, share, or hand to your auditor.

Payment. Standard split is 50% on engagement letter signature, 50% on delivery. For engagements over USD 15,000 the split moves to 40 / 30 / 30 — letter, midpoint, delivery. Wire to a Jordan-based USD account; AED and SAR accepted on request.

06 · WHERE THE REFUSAL LIVES

When no is the right *answer*.

The practice wins by saying no to the wrong engagement. Five categories of work go elsewhere. A name and an introduction usually go with the referral.

01 · ATTEST ENGAGEMENTS

Anything that requires a licensed auditor to sign.

Statutory audit, review, agreed-upon procedures. Daftar is non-attest advisory only — no JACPA, SOCPA, or UAE Ministry of Economy audit licence is held. If you need an attest signature, you need a licensed firm.

02 · TAX FILINGS

The registered agent files.

ZATCA VAT and CIT returns, UAE FTA filings, JACPA tax returns. The practice supports the technical work and documentation that goes into the filing — but the registered tax agent files. Referrals available in all three jurisdictions.

03 · ENGAGEMENTS THAT NEED FIVE PEOPLE

Group audits, multi-entity TP studies, large ERP work.

If five practitioners are required, this is the wrong firm. Mid-tier and Big Four referrals available.

04 · PRE-DECIDED CONCLUSIONS

Independence is not for sale.

If the principal has already decided the answer and wants documentation that supports it, that is a job for someone else. Every engagement letter carries an independence clause. Recommendations are written on the evidence.

05 · ARABIC-FIRST REGULATORY RELATIONSHIP WORK

A practice in Riyadh or Jeddah is better placed.

Some engagements turn primarily on Arabic-first regulatory relationship management — extended ZATCA hearings, Zakat assessments under appeal, inheritance-trigger restructures. Two named referrals on request.

— 07 · THE NEXT STEP

Tell me about the problem you're trying to *solve*.

A 30-minute scoping call — no obligation, no pitch. If there is a fit, you'll have a fixed quote within 48 hours of the call. If there isn't, you'll have a referral to a firm better positioned for the work.

To start. Reply to the message thread, or write directly to ahmad@daftaradvisory.com. Include: the question you are trying to answer, the deadline if there is one, and any documents already in hand. A scoping-call slot will come back within one business day.

INDEPENDENCE & ENGAGEMENT BASIS

Daftar Advisory is a non-attest advisory practice. The principal does not hold a JACPA, SOCPA, or UAE Ministry of Economy audit licence and does not perform statutory audit, review, or agreed-upon procedures engagements. Where work requires an attest signature, the engagement is referred. Every engagement is governed by a written engagement letter with fixed scope, fixed fee, fixed timeline, and a written non-attest disclaimer.

Daftar Advisory.

Rigorous finance, without the *overhead*.
